

ARBOR LOUNGE CHAIR
_ SIS.L

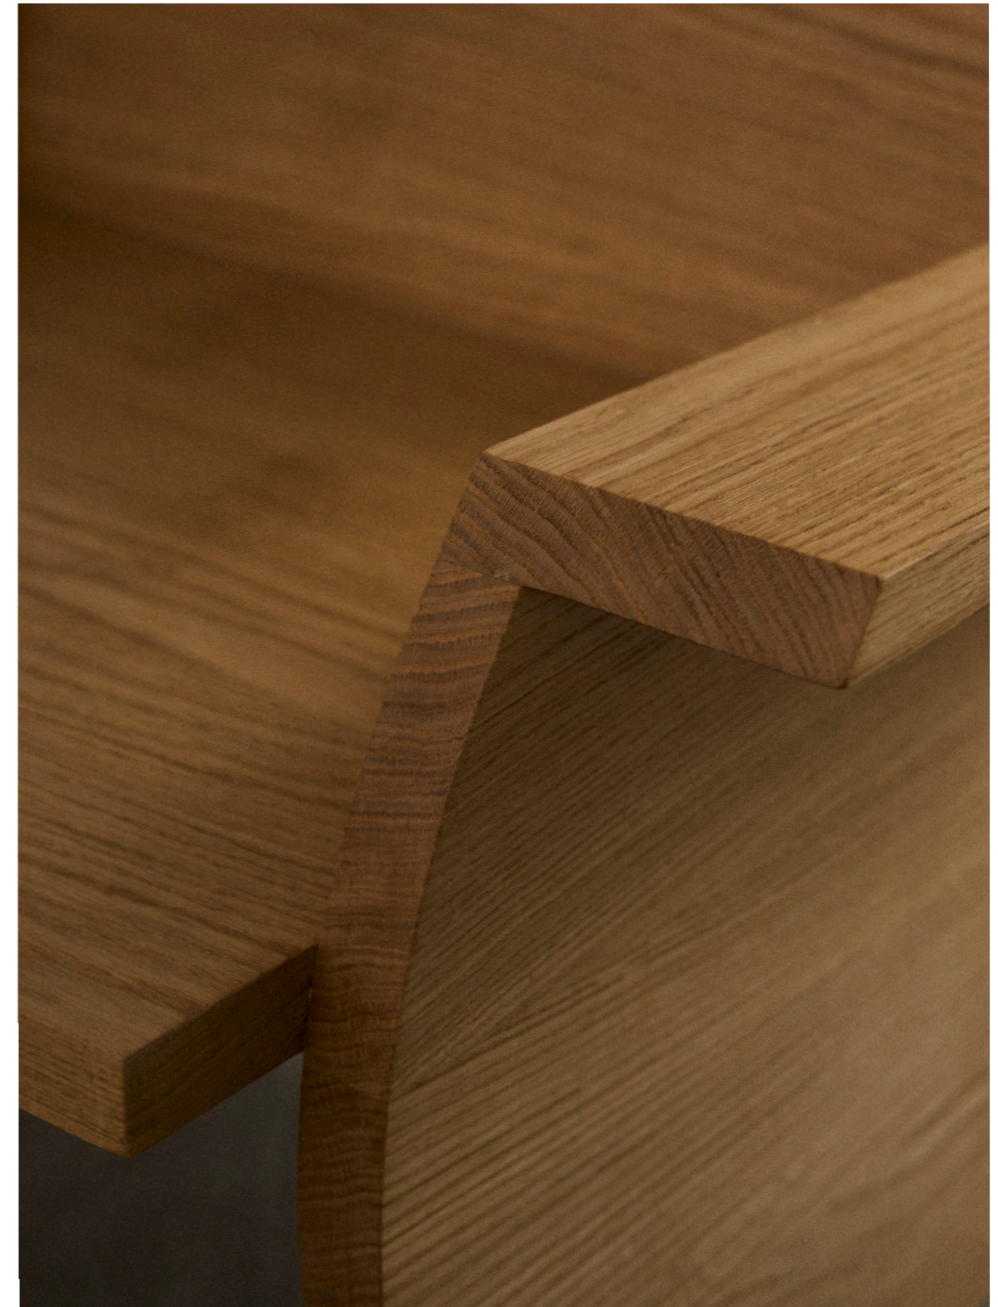

The Arbor Lounge Chair is designed by furniture designer Sissel Gram Warringa with the Helsingør based café, Patio in mind.

Arbor is designed for and inspired by its immediate environment, anchored in the café's vision to preserve Helsingør as a cultural habitat by mirroring the vessels that navigate the waters surrounding the town. The Arbor name plays on a duality of Arbor (wood, latin) and Harbour.

manufacturing

H680 x W830 x D680mm
Solid European oak
Hardwax oiled
Batch production, handmade by Atelier Arethuse

Stringent straight lines and curves meet in a juxtaposed interplay, creating a complex yet playful design language. The chair's stacked construction is entirely crafted in solid European oak and finished with a neutral hardwax oil. Intricate from all angles, Arbor operates as both an art piece and a functional object - a nucleus in any space it is placed in.
